

As a Construction, Environmental & Ecological Engineering Company **Oliet** has a highly qualified and dedicated management staffs. We are a well established company with over Twenty Seven (27) years of experience domestically and internationally in Construction, Demolition and Environmental Remediation. Presently, we have completed more than **\$100,000,000** in contract work, with annual volumes exceeding **\$1,000,000/year**. Our projects completed includes some of the Demolition and Asbestos Abatement projects in New York City School Construction Authority, New York City Housing Authority, NYC HPD, New State DOT, New York State Dormitory Authority including numerous private roof works, asbestos & lead abatement, microbial remediation and other environmental projects.

Oliet has Experience Asbestos Supervisors and Asbestos Handlers and is licensed to remove Asbestos in New York, New Jersey, and Connecticut and possesses certificates for Lead Abatement from the US EPA, Connecticut and New Jersey.

Our financial strength is substantial, with an available open credit line with our financial institutions. We carried the best highly rate coverage currently available within the industry.

The majority of **Oliet's** staffs are project managers, engineers, supervisors and management personnel have been an integral part of our organization since our incorporation in 1992. It is this high level of dedication and commitment that has allowed Oliet to perform at the level to which it has risen.

Over the past thirteen years our staff strength is commensurate to the size of an ongoing project to meet the completion date on schedule.

Oliet is a private corporation with offices in the United State of America and West Africa.

We have encountered Asbestos in nearly every known form and have performed various types of abatement within nearly every conceivable location. Projects have ranged from the abatement of an entire powerhouse to the more sensitive removal of fireproofing from multiple floors in an occupied high-rise building-Southbridge Towers Roof Project; Manhattan.

Because we are in the service industry it is our paramount concern that our client's needs are always properly addressed and over the

years, with quality workmanship, a high level of professionalism, and the timely completion of projects our client base has continued to grow and develop.

We are confident that, after having reviewed our qualifications, you will agree that Oliet International Ltd. is qualified to perform work for your organization.
